B942 Touch Screen Keypad

The keypad is an SDI2 bus compatible device. The keypad features an illuminated touch screen and graphical interface. With an elegant design and low profile, the keypad fits with any modern decor. Each keypad has user adjustable options such as volume and brightness. They have four inputs and one output. The keypad shows system messages for all areas.

**Keypad languages**
The following languages are available:
- English
- Chinese
- French
- Greek
- Italian
- Hungarian
- Polish
- Portuguese
- Spanish

**System overview**
- For commercial use, install the keypad in building entrances and areas with unrestricted access. Mounting a keypad near exterior doors in hotel or business lobbies allows people to identify the type and location of the emergency.

**Functions**

**Display**
The touch screen display uses icons, words, numbers, and symbols to show the status of the security system and for interacting with the security system. When several events occur, the keypad shows each event in order of priority. The keypad detects when a user approaches and automatically activates the display.

**User icons and keys**
The keypad greets the user with a home screen that shows the system status at one glance using a large icon. The user can change the system status by simply touching this home screen icon. The touch screen display also offers icons on the ribbon bar. These visually pleasing graphical icons are easy to use for...
accessing menus and other options. The keypad has a variety of keyboards for entering alphanumeric characters. The keypad screen has numeric keys and one function [CMD] key. When pressed, keys emit a muted beep. Use the keyboards for entering passcodes, activating commands, and entering alphanumeric characters.

**Audible tones**
The keypad has a built-in speaker that produces several distinct warning tones. The tones are differentiated so that the user can recognize an event simply by hearing its associated tone. The keypad backlight illuminates when it emits an audible tone. Users can use a passcode or credential to silence the tone.

**Status indicators**
The status indicators on the keypad provide a quick visual reference for system status.

- ✓ The indicator lights when the system is ready to turn on (arm).
- ○ The indicator lights when the system is on (armed).
- ▲ The indicator lights when there is a trouble condition.
- ⚠ The indicator lights when dangerous gases are present including carbon monoxide (NFPA 720).
- ♦ The indicator lights when the system has power.

**Proximity reader**
The proximity reader allows users to use a token or card in place of a passcode to turn on or off the security system. The proximity reader supports EM4102 (125 kHz) credentials. The Bosch ACA-ATR13-RFID tag and Bosch ACD-ATR11ISO-RFID card are examples.

**Certifications and approvals**

**Installation/configuration notes**

**Power supply**
A compatible control panel supplies the power and data requirements to the keypad through a four-wire connection.

**Mounting and wiring**
Mount in dry indoor locations. Includes a slim mounting plate for recessing wiring, and a surface mounting plate for surface mounting and wiring.

**Compatible control panels**

Inputs | 4 (four) 1kΩ supervised inputs
---|---
Output | 1 (one) NO (normally open) contact

Environmental considerations

Relative humidity | 5% to 93% at +32°C (+90°F) non-condensing
Temperature (operating) | 0°C to +50°C (+32°F to +122°F)

Power requirements

Current with proximity reader disabled | Standby: 200 mA
| Alarm: 300 mA
Current with proximity reader enabled | Standby: 300 mA
| Alarm: 400 mA
Voltage (input) | 12 VDC nominal

Wiring

Terminal wire size | 18 AWG to 22 AWG (1.02 mm to 0.65 mm)
SDI2 wiring with prox detector disabled | Maximum distance · wire size (unshielded wire only): 200 ft (61 m) · 22 AWG (0.65 mm)
| 520 ft (159 m) · 18 AWG (1.02 mm)
SDI2 wiring with prox detector enabled | Maximum distance · wire size (unshielded wire only): 150 ft (46 m) · 22 AWG (0.65 mm)
| 390 ft (119 m) · 18 AWG (1.02 mm)

Inputs and output

On-board points voltage ranges | Open: 2.2 to 5.0 VDC
| Normal: 1.4 to 1.8 VDC
| Short: 0.0 to 1.0 VDC
| Short circuit current: 2.3 mA
Relay contact rating | 24 VDC, 1 A, power factor: 1

B942W Touch screen KP, prox/input/output, white
White SDI2 touch screen keypad with inputs and one output.
Available languages: English, Chinese, French, Greek, Italian, Hungarian, Polish, Portuguese, Spanish.
Order number B942W

B942-CHI Touch Screen KP Prox/Input/Output, black
Black SDI2 touch screen keypad with inputs and one output.
Available language: Chinese.
Order number B942-CHI
