

Google Chrome

DIVAR network/hybrid 2000/3000/5000

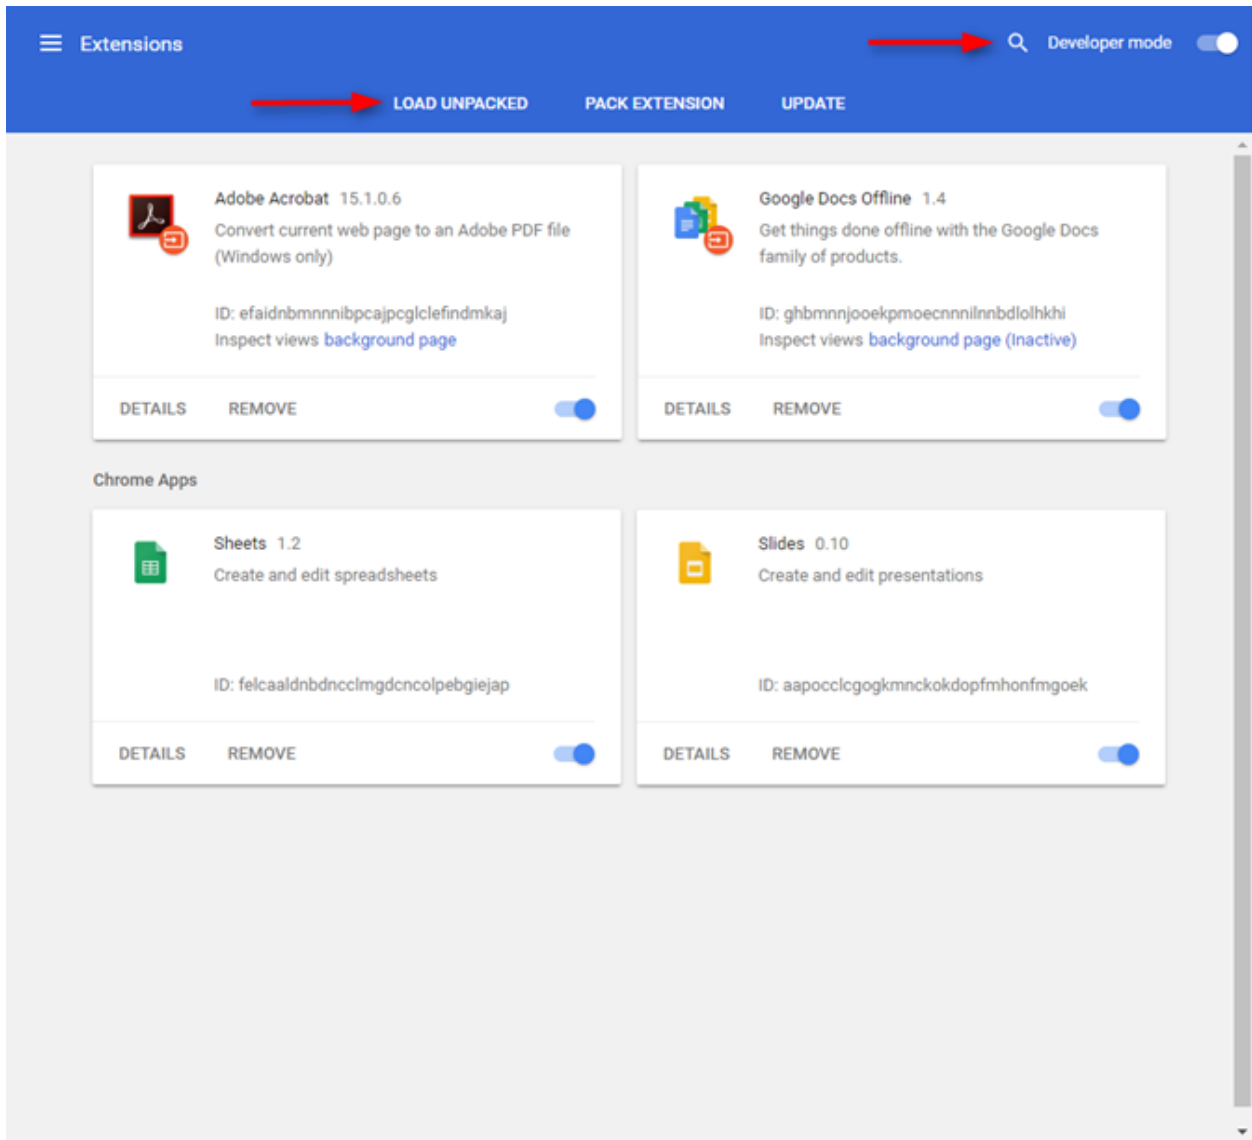

Installation of the Google Chrome web plug-in (requires Admin rights on the PC)

The DIVAR network/hybrid web browser in Chrome uses a plugin to connect to the DIVAR and display video data. Because Google Chrome no longer allows 3rd party applications to be downloaded / installed directly from the Google Chrome store, it has to be installed manually by the user. This document describes the installation steps to install the DIVAR network / hybrid Chrome plugin.

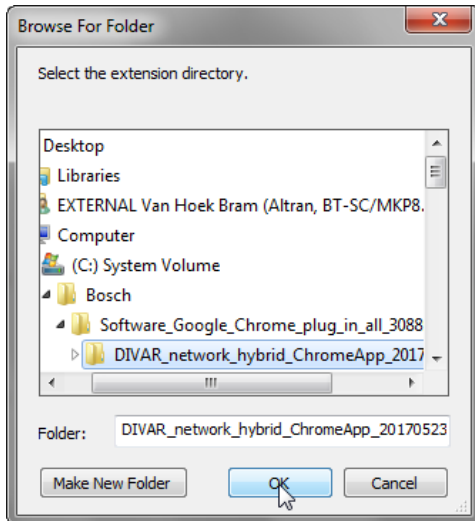

1. Download the Chrome web plug-in from the Bosch Web site, located in the product page of the DIVAR network / hybrid, to your PC.
2. Extract the zip file 'DIVAR_network_hybrid_ChromeApp_20170523.zip'
3. Start Google Chrome
4. In the menu open 'More tools' → 'Extensions'

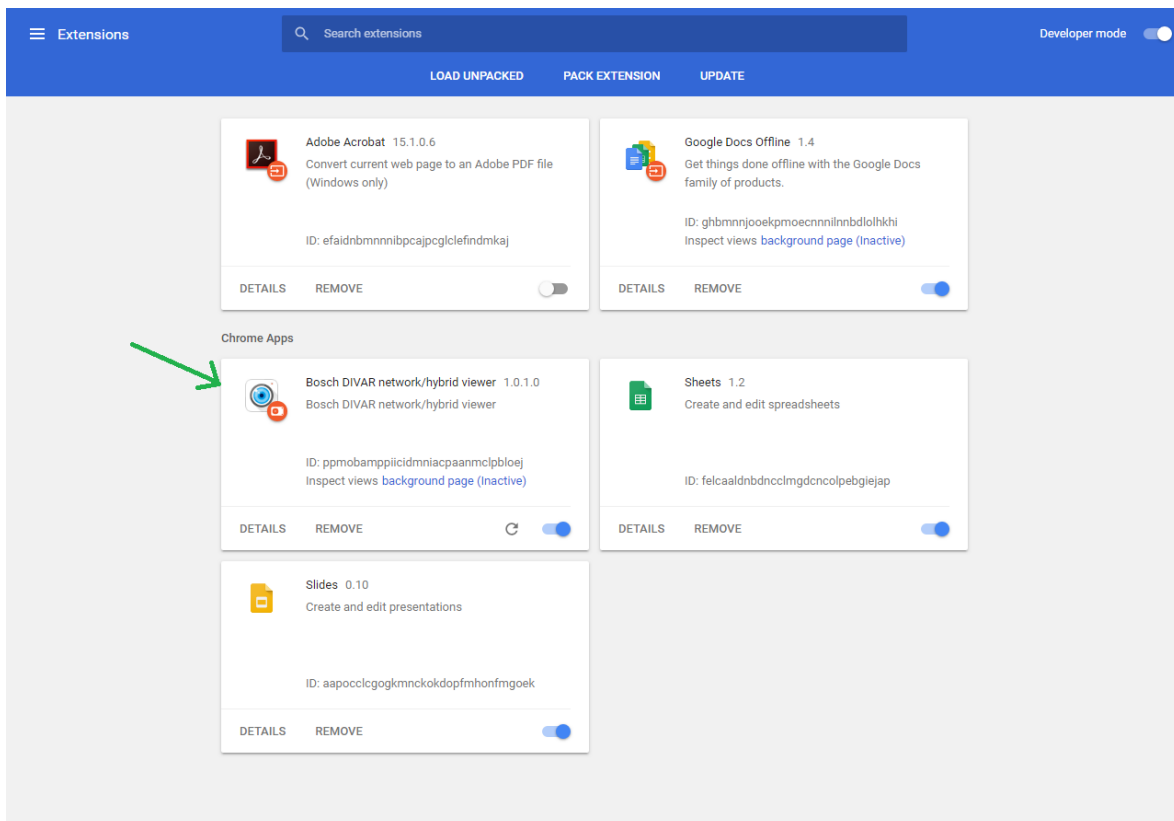

- 5. Select 'Developer mode'
- 6. Select 'LOAD UNPACKED'

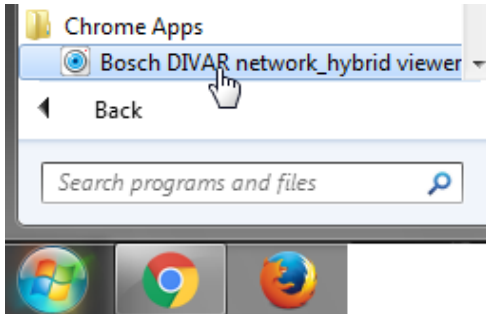

7. Browse to the folder were you extracted the .zip file and select the extension directory and Select OK

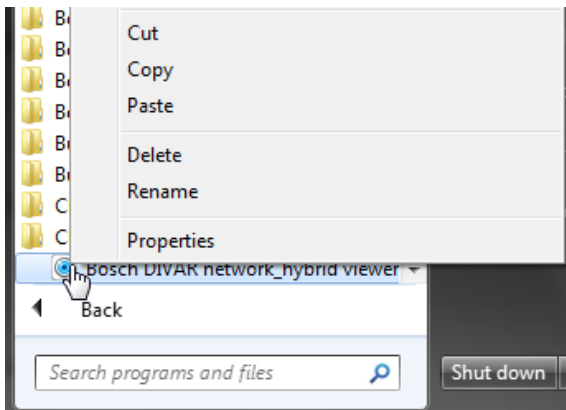

8. Now in the Extensions page you can find the Bosch DIVAR network/hybrid viewer
This indicates installation was successful. The extensions page can be closed and then the Bosch DIVAR Chrome app can be started from the windows start menu.

9. Press 'Start' and click on Chrome Apps directory

10. Right mouse click, copy and paste shortcut to the desktop

11. Close the Chrome web browser and select the below Chrome shortcut to start the web service. Add the IP address of the DIVAR network / hybrid to connect to the unit and display the video data.
