BOSCH
Invented for life

- ▶ Prefabricated to reduce installation time
- ▶ Different lengths available
- ▶ Low smoke zero halogen to comply to safety and environmental standards

The DICENTIS Cable Assemblies are terminated at both ends with RJ45 like connectors with additional power pins. The cable assemblies are used to connect a DICENTIS device to the audio powering switch or to the powering switch. It provides network communication and power transports in one cable. The cable assemblies are used when loop-trough and redundant cable connections are required. The cable assemblies are made of low smoke zero halogen material to comply with safety and environmental standards.
