

Introducing the Personal Security Pager

The Personal Security Pager helps reinforce on-site security. Based on proven pager technology for reliability, it includes enhancements like secure messaging and a dual display for easier reading. It is lightweight and compact, easily carried and convenient to use.

Extra security for on-site personnel

The Personal Security Pager with automatic alarms is a smart choice to protect personnel and prevent incidents from escalating into emergencies. Featuring smart alarms it can automatically detect an emergency situation – without user intervention. In addition, the tear-off alarm is the ideal way to have help on its way in seconds.
