Release Letter

Product:	<i>BVIP Lite Suite 3.21</i>
----------	------------------------------------

This letter contains latest information about the above mentioned software suite.

1. General

BVIP Lite Suite is an entry-level IP-based video management system.

It is a suite of software application modules for

- configuration of devices,
- viewing of live video and
- replay of recordings.

It comprises language support for German, English, French, Italian, Dutch, Spanish, Polish, Portuguese, Russian, Chinese and Japanese.

This maintenance version has been created to support the re-introduced replay from VIDOS-NVR and replay via network connections using Network Address Translation.

BVIP Lite Suite is an enhanced version of the formerly known VIDOS Lite Suite.

It has been renamed to reflect the more generic BVIP product-related aspect.

Existing Installations of VIDOS Lite Suite can be transformed to BVIP Lite Suite by upgrading to this version. Applied licenses will still be valid.
