Release Letter

Product:	<i>VIDOS Pro Suite 4.02</i>
----------	------------------------------------

This letter contains latest information about the above mentioned software suite.

1. General

VIDOS Pro Suite is a scalable IP-based client/server video management system. It is a suite of software modules to cover application cases from small to medium to large projects with full flexibility due to its modular approach.

This version 4.02 is a maintenance version based on VIDOS Pro Suite 4.01 and provides feature enhancements and bug fixes.

The main features of VIDOS Pro Suite 4.02 include support of

- H.264 decoding and the new H.264 products,
- the H.264-capable Monitor Wall as well as
- the VRM Video Recording Manager 2.10 as the recommended recording management engine and the recommended server for client/server installations.

It comprises language support for German, English, French, Italian, Dutch, Spanish, Polish, Portuguese, Russian, Chinese and Korean.
