## Release Letter

Product:	<b><i>Configuration Manager</i></b>
Version:	<b><i>1.72.0019</i></b>

This letter contains latest information about the above mentioned software.

### 1. General

Configuration Manager is a generic configuration tool for all Bosch IP Network Video Products, both software modules and hardware devices.

It is used for configuration and licensing of the various products where it is included on the product CD.

Make sure to always use the latest released version.

Configuration Manager 1.72.0019 is a maintenance release to 1.72.0018 and just provides a bug fix. No new features were added since 1.72.0018.

### 2. Changes

- Tamper detection flags were not correctly updated in BVIP devices when clicking “Default Settings”. This bug has been fixed.
